

UNIVERSITY OF ILLINOIS  
AT URBANA-CHAMPAIGN

National Center for Supercomputing Applications  
1205 West Clark Street  
Urbana, Illinois 61801

June 23, 2009

To Whom It May Concern:

We wish to confirm our invitation to you to participate in the “Virtual School of Computational Science and Engineering, Summer School 2009: Many-Core Processors for Science and Engineering Applications” workshop hosted by the National Center for Supercomputing Applications (NCSA) at the University of Illinois at Urbana-Champaign on August 10-14, 2009. The location of the meeting will take place at NCSA, 1205 W. Clark Street, Urbana, Illinois.

This summer school course will provide graduate students with knowledge and hands-on experience in developing applications software for many-core processors with massively parallel computing resources. This workshop is sponsored by the National Center for Supercomputing Applications (NCSA). Invited participants provide their own travel and accommodations, but other than that there is no cost for this workshop.

For further information on the workshop, please refer to the website, which can be found at <http://www.greatlakesconsortium.org/events/manycore/>.

Please feel free to contact me if you need any immediate information. We look forward to seeing you at the workshop.

With best regards,

Tom Scavo
